2CD OIML R 139-3 *`Compressed gaseous fuel measuring systems for vehicles Part3(Report format)`*

Dear colleague,

After OIML R 139 *`Compressed gaseous fuel measuring systems for vehicles`* was approved by CIML in 2007 and where it was decided to immediately revise this Recommendation, and transfer the responsibility for TC8/SC7 to NL, The secretary started the work on drafting in accordance with the philosophy propagated by BIML, new Recommendations are to be split in 3 distinctive Parts: with the requirements, the metrological control and tests, and the Report Format respectively.

This lead to two sequential committee drafts of both OIML R 139-1 and OIML R 139-2 which passed on-line preliminary ballot and are published for CIML approval in November 2014. In the mean time a first committee draft of Part 3 was produced by the secretariat and forwarded for comments.

The compiled comments have been responded and acted upon by the convener and the result is the TC 8/SC 7/P04/N069 2CD OIML R139-3 which is made available on the TC/SC website. For your convenience and for readability reasons also an unmarked "clean" version of the 2 CD is published as well. (TC 8/SC 7/P04/N067 2CD R 139-3 clean). The secretariat took effort to satisfy all comments received a best as possible.

The compiled comments and observations by the secretariat TC 8/SC 7/P04/N066_CC also are made available on the TC 8/SC 7 p4 website pages.

Please send your **vote (P-members only)** and **comments** (in "MSWORD" format) : on the draft using the enclosed comments and voting forms (TC 8/SC 7/P04/N065/VP and TC 8/SC 7/P04/N069/FC respectively) at your earliest convenience and **no later than 8 December 2014** either by normal mail or by e-mail to:
